

Speaker Cable - Connecting Cords

Speaker Cable

Speaker Cable

Speaker cable is a kind of connecting cords which is used to make the electrical connection between loudspeakers and audio amplifiers. The speaker cable is widely used in loudspeakers, stereos, engineering and meeting rooms, etc. It is an indispensable connecting cord in daily life.

The outstanding speaker cable offered by China HEFS is characterized by high quality. It is economical and practical. High audio fidelity will be achieved by this unique speaker cable which makes the low-middle audio quality rich and full, the high audio quality sonorous and smooth. The speaker cable is flexible and supple so as to be conveniently used in limited space of the loudspeakers.

The HEFS speaker cables are of a great variety including 12 connecting cords with different specifications which vary from HEFS-2001 to HEFS-2012. Please choose our safe and practical speaker cable as per your needs.
